

The Intelligencer.

Office Nos. 20 and 27 Fourteenth Street.

The little earthquake in Canada may have been caused by another American abductor sleeping on that soil.

That Macon affair must have been conceived and rushed through by some base-born Republican. It is grisly for that mill.

Down in Dixie they don't "wave the bloody shirt." They just amuse themselves by rattling the bones of the dead Confederacy.

Gen. B. F. Butler is talking some queer law in these days. What can he be about to run for, and under what auspices will he seek it?

Those who thought Gov. Foraker a little ardent in his patriotism, are requested to note carefully the recent literature from the land of the cypress and pine. Selah.

Think of the Autocrat of all the Russias being brought to bay by no commonplace thing as the measles! The very presence of his empire will smile at His Autocratness.

Mr. Jay Gould is going to see whether he can reduce Gibraltar while he is absent from his native land. He has brought down everything he has tried his hand on at home.

This first movement of Western Union after the absorbing of the Baltimore & Ohio, is not so bad. It was not to be expected that the Baltimore & Ohio cutrates would be retained.

This murder of Editor Reynolds in Ashland, Ohio, was an old-blooded affair as this country has known. If there is law in Ohio the murderer of Mr. Reynolds should have a full dose of it.

At a dinner in Paris Mr. Blaine was seen to "smile aconically" when a toast was proposed to the President. Mr. Blaine must stop that. It is but a step further to putting dynamite in the White House coffee.

It is kind of Governor Gordon to admit that, however mistaken Abraham Lincoln was, he meant to do right. If Lincoln were alive now it might be that in this "era of good feeling," they would consent to let him visit Macon or Richmond if he said nothing and split rails.

From Point Pleasant comes a very circumstantial story about an attempt to put West Virginia into Ohio to help Governor Gordon and President Cleveland carry the State for Powell and reform. No matter which party resorts to fraud, it ought to be punished to the full extent of the law. When the ballot box is made to lie every man's liberty is in danger.

A Chicago correspondent says that many of the alarmist stories about the Anarchists are to be attributed to needy talent in search of his winter overcoat. The same writer says there is no fear of an outbreak at the time of the hearing, though the police will be kept in readiness for anything that may happen. To be prepared is a good way to prevent the occurrence of some undesirable thing. An outbreak at such a time would have a bad effect.

At Macon Mr. Jefferson Davis addressed the young men present as "my young countrymen." What did he mean? How can a man without a country have countrymen?

Mr. Davis has no country. Since his misadventure as the head of the Confederacy he has obstinately refused to have a country. He is in this country, but not a part of it.

This is a way of not acknowledging that the Confederate movement was a failure. This is his way of settling himself above all other men who were engaged in that movement, for he is the only one who refuses to take part in the Government and to be part of it.

Mr. Hogg was in the city yesterday on his way home from Burning Springs, where he had been to settle the question of who shall succeed Postmaster Tucker, who has resigned. There are two applicants, viz: W. C. McConaghey and Harrison Galt. Mr. Hogg decided to recommend the appointment of Mr. McConaghey.

The Brotherhood of Engineers. Chicago, Oct. 30.—The Convention of the Brotherhood of Locomotive Engineers concluded the election of officers by choosing Nicholas Long, of Chattanooga, Tenn., Grand Chaplain, the Grand Chaplain and a committee of ten were appointed to attend the funeral to-day at Indianapolis, Ind., of Past Grand Chaplain George W. Tyler. The Convention also concluded the consideration of the life insurance organization connected with the Brotherhood and made some slight amendments to its constitution and by-laws.

Secretary Whitney. New York, Oct. 30.—Secretary of the Navy William C. Whitney spent the day quietly at his home in this city. Dr. Logan called to see him in the morning and pronounced him better, but repeated his orders to keep absolutely quiet for several days. Callers were told that he would be well in about a week. He was not forced to see visitors, but Mrs. Whitney entertained a few friends during the afternoon.

Ancient Coins Found. Cincinnati, Oct. 30.—A Ripley, O., special agent was keen excavating on the Mayville & Big Sandy Railway in Kentucky, opposite Ripley, found, a few days ago, an earthen pot with thirty gold and twenty silver coins. The collection is worth about \$500. The gold coins have a figure of a fish on them and the word "Biliver." Both gold and silver coins bear the date of 1530.

Fishery Statistics. Halifax, N. S., Oct. 30.—The collectors of customs at all fishing centres in Nova Scotia are furnishing to the Dominion authorities a special statement of the present season's importation and exportation of fish and importation of American bait, in order to place the latest and most reliable facts before the Hon. the Minister of the Fisheries and Marine.

ALL WERE LOST. ON BOARD THE STEAMER VERNON. In Lake Michigan—A Crew of Twenty-two Seamen and an Unknown Number of Passengers—None Left to Tell the Story—Captain's Thrilling Recital.

MILWAUKEE, Oct. 30.—The passenger propeller Vernon was wrecked in the terrible gale that swept Lake Michigan yesterday, and her entire crew of twenty-two persons and the passengers, number unknown, are supposed to have been lost. It involves a greater loss of life than any of the previous disasters on the lake this season, not excepting the propeller Champlain, which burned early in the spring of 1886, and the steamer Chicago, which was wrecked in the spring of 1887.

The vessel was owned by the Chicago & North Western Transportation Company, and was on her way from Chicago to Milwaukee. She was carrying a large number of passengers, and a large amount of freight.

The vessel was last seen on the morning of the 29th, when she was reported to have been sighted by a fisherman near the mouth of the Menominee River.

The vessel was last seen on the morning of the 29th, when she was reported to have been sighted by a fisherman near the mouth of the Menominee River.

The vessel was last seen on the morning of the 29th, when she was reported to have been sighted by a fisherman near the mouth of the Menominee River.
